

EDGE® U-BLADES

The EDGE U-Blade is an essential landscape tool that will transform your compact equipment into a profitable workhorse for digging, transplanting and removing trees and shrubs.

OPERATIONAL BASICS

The open design of the U-Blade allows for both forward and backward digging. The rigid frame, made of 3/8" high carbon steel provides maximum durability for digging, trenching and breaking up hard soil. The U-Blade is available in 26" (660 mm), 30" (765 mm) and 36" (914) inside blade diameters with approximate digging depths of 48" (1219 mm).

SPECIFICATIONS

Model	Weight (lbs/kg)	Inside Blade Dia. (in/mm)	*Digging Depth (in/mm)
UBV26	370/167.8	26/660	48/1219
UBV30	390/176.9	30/762	48/1219
UBV36	390/176.9	36/914	48/1219

*Digging depth varies with size and brand of machine

FEATURES

- Open design allows forward and backward digging
- Remove trees and brush, dig holes for incoming trees and place trees or shrubs with same tool
- Pick and dig rocks or break hard soil
- 3/8" high carbon steel blade
