

EDGE® V-BLADE

So simple, yet so vital, the EDGE V-blade has stood the test of time. The V-blade increases your compact loader's productivity and efficiency by plowing snow.

OPERATIONAL BASICS

The EDGE V-blade features four (4) compression springs allowing the 5/8" x 8" reversible steel cutting edge to trip if it comes in contact with a hidden object. The V-blade also oscillates up to 8 degrees and angles up to 30 degrees and can be configured into five (5) positions: V-shape, scooped, straight, right and left. The V-blade comes standard with a reversible steel cutting edge and is available in sizes ranging from 48" (1219 mm) to 120" (3048 mm). Comes complete with hoses and flat face couplers; an optional wing kit is also available.

SPECIFICATION

Model	Weight (lbs/kg)	Straight Path (in/mm)	Angled Path (in/mm)	Angle (degrees)	Oscillation (degrees)	Height (in/mm)
VB48	1060/481	51.5/1308	44/1118	30	8	31/787
VB60	1070/485	62/1575	53/1346	30	8	31/787
VB72	1130/513	74/1880	64/1626	30	8	31/787
VB84	1190/540	86/2184	74/1880	30	8	31/787
VB96	1250/567	98/2489	84/2134	30	8	31/787
VB102	1310/594	110/2794	95/2413	30	8	31/787
VB120	1370/621	120/3048	104/2642	30	8	31/787

FEATURES

- 8 degrees oscillation to follow uneven surfaces
- 5 blade configurations: v-shape, scooped, straight, right and left
- 5/8" x 8" reversible wear edge
