

### EDGE® LAND LEVELER

The EDGE land leveler is the perfect landscaping preparation attachment designed to sift dirt and remove large chunks and rocks for a smooth finish. The land leveler can be used to smooth out lots, roads and trails or prepare running tracks and baseball diamonds.

### OPERATIONAL BASICS

The EDGE land levelers feature unique brackets on top of the frame to set a bucket on and take less space on a trailer when transporting (the bucket will still need to be secured before transporting). EDGE land levelers are available in 72" (1828 mm), 78" (1981 mm) and 84" (2133 mm) working width sizes. Models with optional hydraulic scarifier have nine 6" long teeth that dig in and break up hard packed soil. A 1.5" (38 mm) x 6" (152 mm) hydraulic cylinder engages the scarifier teeth. All land levelers come complete with bolt on reversible cutting edges, hoses and flat face couplers.

### SPECIFICATION

Model	Weight (lbs/kg)	Working Width (in/mm)	Overall Width (in/mm)	No. of Teeth	Tine Length (in/mm)
LL72	660/299	72/1828	73/1854	N/A	N/A
LL78	735/333	78/1981	80/2032		
LL84	770/349	84/2133	86/2184		
LL72S	895/405	72/1828	73/1854	9	6/152
LL78S	930/421	78/1981	80/2032		
LL84S	1025/464	84/2133	86/2184		

### FEATURES

- Frame features unique brackets to set a bucket on top of for transport
- Smooth out lots and prepare running tracks and baseball fields
- Sifts dirt and removes rocks for smooth finish
- Models with optional scarifier have a 6" digging depth
- Nine 6" teeth dig in and break up hard soil
